System improvements

- ▶ New function for users: online registration of usage outputs and uploading-downloading of restricted data use pledges are now available.
- ▶ DOI registration function added.
- ▶ Full operation of the modification started in 2022.

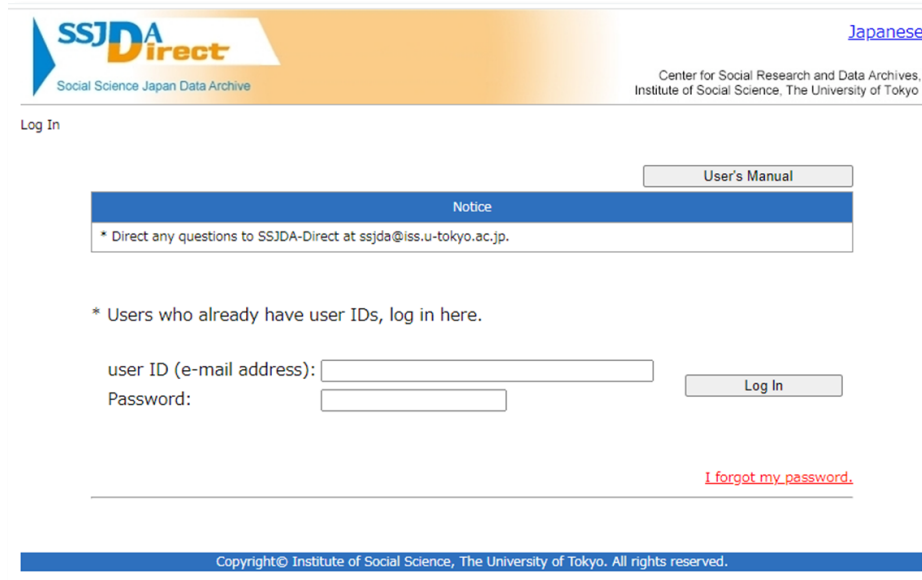

The screenshot shows the 'Register Usage Output' form on the SSJDA Direct website. The form is titled 'User Page > Register Usage Output' and includes a 'Japanese' link in the top right. The form fields are as follows:

Date Output Registered	13/Feb/2023	Certified date	# Required Field
# Author Name *1	<input type="text"/>		
# Title	<input type="text"/>		
# Title of Journal or Publication, Publisher name, etc.	<input type="text"/>		
# Total Pages (Page Numbers) *2	<input type="text"/>		
# Acknowledgement section (number of pages)	<input type="text"/>		
# Year and Month of Presentation	Feb / 2023		
# Method of submitting output	<input checked="" type="radio"/> DOI <input type="radio"/> PDF <input type="radio"/> Mail		
Remarks *3	<input type="text"/>		

*1 If there are collaborators, enter each collaborator's name separated by commas.
*2 For books, enter the total number of pages. For journals enter the starting and ending page numbers of the article.
*3 For output reports which are published on the Internet, enter the URL.
*4 Registered information of the output may be modified, based on contents of the output sent to SSJDA.

Implementation of the Self-Deposit System

- ▶ Depositors register accounts and upload deposit data themselves.
- ▶ They can update their personal information and check data usage through the system at any time.
- ▶ Full operation started in January 2023.

Implementation of new online data analysis system: SSJDA Data Analysis

- ▶ Nesstar is scheduled to shut down in March 2024 following the termination of the system provider's services.
- ▶ We started to develop the new online data analysis system in 2018 and released it in October 2022.
- ▶ Features
 - ▶ No registration or login required: the system can be used by anyone, regardless of the affiliation restrictions of registered users of SSJDA.
 - ▶ No commands required: the system can be used at universities with insufficient statistical analysis software or for exploratory learning in primary and secondary education.
- ▶ What can this system do for you?
 - ▶ Descriptive analysis, cross-tabulation analysis, correlation analysis, analysis of variance, and regression analysis
- ▶ Available datasets: 166

Metadata: Initiatives for Japan Data Catalog for Humanities and Social Sciences (JDCat) collaboration

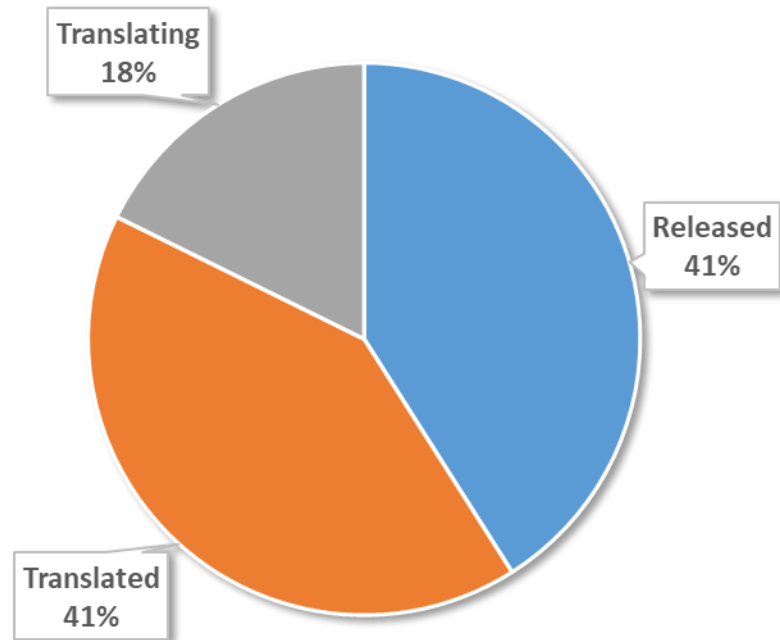

- ▶ Editing current metadata for linkage with JDCat
- ▶ Obtain DOIs for all metadata
- ▶ Number of metadata linked to JDCat: more than 370

The screenshot displays the JDCat website interface. At the top, there is a header with the JDCat logo and the text 'Japan Data Catalog for the Humanities and Social Sciences'. Below the header, a navigation bar includes links for 'Top', 'Information', 'About', 'Manual', 'Link', 'Guideline', and 'JDCat Analysis Tool'. A search bar is prominently featured, with a search button and an 'Advanced' option. Below the search bar, there are radio buttons for 'Full text' (selected) and 'Keyword'. The main content area shows search results for the item 'Japanese Life Course Panel Survey of High School Graduates (JLPS-H) Wave 1, 2004.3'. On the left, a sidebar lists various filters: 'Data Language', 'Access', 'Geographic Coverage', 'Time Period(s)', 'Topic', 'Distributor', and 'Data Type'. The main results area displays the item title, a URL, and a table of metadata including 'Item type', 'PubDate', 'Title', and 'Author'. To the right of the table, there is a summary box showing '20' views, a 'total' dropdown, and a 'See details' link.

Item type	Harvesting DDI(1)
PubDate	2023-02-12
Title	東大社研・高卒パネル調査 (JLPS-H) Wave 1, 2004.3 Japanese Life Course Panel Survey of High School Graduates (JLPS-H) Wave 1, 2004.3
Author	"Transformation of education and the labor market" project (2000-2006), a sub-project of the institute-wide joint research project of the Institute of Social Science (ISS) at The University of Tokyo, "The Lost Decade?"

Translation into English

► Translation of metadata

► Translation of major datasets and labels

e.g.,

- Social Stratification and Social Mobility Survey
- Japanese Life Course Panel Survey of High School Graduates (JLPS-H)
- Survey on Life Attitudes of Parents and Children, *etc.*

► Apply for CoreTrustSeal

Unrestricted Public Pseudo-Data

- ▶ Pseudo-data created from real data is now available for teaching and practice of analysis (available from October 2022).
- ▶ Based on real data (survey No. PY010), 1,000 cases were randomly selected, variables were drastically reduced, and random noise was mixed into the responses.
 - ▶ PY010: [Japanese Life Course Panel Survey of the Youth (JLPS-Y) Wave 1, 2007], deposited by the Japanese Life Course Panel Surveys (JLPS) project, Institute of Social Science, the University of Tokyo
- ▶ There are no restrictions, and anyone can use.
- ▶ Number of downloads from October 2022 to January 2023: 119

4 Education and Research Activities

To promote deposition

- ▶ Online seminars are organized to deepen understanding of data deposit.
- ▶ Seminars with depositors to introduce deposited data
- ▶ Workshop on introduction and practice of the Data Management Plan

Apply now!

Calls for CSRDA discussion papers
Anyone engaged in empirical social science research or research in the areas related to SDGs is eligible to submit a paper. We welcome the submission of papers that have used data provided by Japanese or overseas data archives.

Calls for presenters at the SSJDA seminar
The SSJDA seminar welcomes research presentations by young researchers who are conducting empirical social science research. Presenters will be invited to Japan and have an opportunity to exchange opinions and build networks with Japanese and overseas researchers.

Submission accepted on an ongoing basis | Contact us: seminarcsrda@iss.u-tokyo.ac.jp | Please visit our website for application details: <https://csrda.iss.u-tokyo.ac.jp/english/International/>
